

Saturday, Dec. 13 Drawing  
**Estimated Jackpot: \$1 Billion**  
Cash Value: \$457.7 million

- This is the second Powerball jackpot to reach \$1 billion this year, following the \$1.787 billion jackpot won on Sept. 6 in Missouri and Texas.
- This ranks as the seventh-largest Powerball jackpot.

#### **Top 10 Powerball® Jackpots**

1. \$2.04 Billion – Nov. 7, 2022 – CA
  2. \$1.787 Billion – Sept. 6, 2025 – MO, TX
  3. \$1.765 Billion – Oct. 11, 2023 - CA
  4. \$1.586 Billion – Jan. 13, 2016 – CA, FL, TN
  5. \$1.326 Billion – April 6, 2024 – OR
  6. \$1.08 Billion – July 19, 2023 – CA
  7. **\$1.0 Billion (est.) – Dec. 13, 2025**
  8. \$842.4 Million – January 1, 2024 – MI
  9. \$768.4 Million – March 27, 2019 – WI
  10. \$758.7 Million – Aug. 23, 2017 – MA
- Saturday's drawing will be the 42<sup>nd</sup> drawing in the jackpot run. This streak ties the game record for most consecutive drawings in a single jackpot cycle. The only other jackpot run to reach 42 drawings was the \$1.787 billion jackpot won on Sept. 6.
  - The current jackpot run has also produced 54 *Match 5* winners (\$1 million) and eight *Match 5 + Power Play*® (\$2 million).
  - **How is the Powerball Grand Prize estimate determined?**  
The two main factors that determine the advertised jackpot annuity are projected ticket sales and the annuity factor. The annuity factor, or cost to fund an annuity prize, is made up of interest rates for securities purchased to fund prize payments. Higher interest rates allow for the purchase of a larger annuitized prize.
  - **How do ticket sales surge during major jackpot runs?**  
Player participation directly correlates with the advertised jackpot. As the advertised jackpot increases, ticket sales rise as well, which drives the jackpot higher.

- ***Do I have less of a chance to win, if more people are playing?***  
No, Powerball players have the same chance to win in every Powerball drawing, regardless of how many tickets are sold or how big the jackpot grows.
  - The overall odds of winning a prize are 1 in 24.9.
  - The odds of winning the jackpot are 1 in 292.2 million.
- **\$2 Ticket Price**
  - Powerball has had a \$2 ticket price since 2012.
  - The current game matrix and odds have been in place since 2015.
- **Good Causes** – On average, 35% of a \$2 Powerball ticket goes to fund good causes; transfer percentages vary by jurisdiction.
- **Annuity vs. Cash** - Powerball jackpot winners may choose to receive their prize as an annuity or a lump sum payment (cash option). Both advertised prize options are prior to federal and jurisdictional taxes. A jackpot winner who selects the annuity will receive one immediate payment followed by 29 annual payments that increase by 5% each year.
- **Five Powerball jackpots have been won, so far, this year:**
  - Jan 18, 2025 - \$328.5 million – Oregon
  - Mar 29, 2025 - \$526.5 million – California
  - Apr 26, 2025 - \$167.3 million – Kentucky
  - May 31, 2025 - \$204.5 million – California
  - Sept. 6, 2025 - \$1.787 billion – Missouri, Texas
